Chemistry and Physics of Lipids
83 (1996) 181–182

CPL
CHEMISTRY AND
PHYSICS OF LIPIDS

Volume contents

Volume 83 (1996)

P.A. Wallace, D.E. Minnikin (UK) *Synthesis of a derivative of racemic 3-hydroxy-2,4,6-trimethyltetracosanoic (mycolipanolic) acid and racemic 2,4,6-trimethyltetracos-2-enoic (mycolipenic) acid* 1
F.M. Linseisen, S. Bayerl, T.M. Bayerl (Germany, Canada) *^{2}H-NMR and DSC study of DPPC-DODAB mixtures* 9
N. Phonphok, G. Chidichimo, P.W. Westerman (USA, Italy) *Disposition of chloroform in phosphatidylcholine membranes: a ^{2}H- and ^{31}P-NMR study* 25
X.-Y. Liu, F.-L. Guo, L.-M. Wu, Y.-C. Liu, Z.-L. Liu (China) *Remarkable enhancement of antioxidant activity of vitamin C in an artificial bilayer by making it lipo-soluble* 39
R.A. Harte, S.J. Yeaman, J. McElhinney, C.J. Suckling, B. Jackson, K.E. Suckling (UK) *Effects of novel synthetic sterol probes on enzymes of cholesterol metabolism in cell-free and cellular systems.* 45
M.R. Moya-Quiles, E. Muñoz-Delgado, C.J. Vidal (Spain) *The pyrethroid insecticide deltamethrin modifies the thermotropic properties and lipid packing order of model membranes* 61
A. Ferretti, V.P. Flanagan (USA) *Mass spectra of tert-butyldimethylsilyl ether derivatives of the major metabolite of prostaglandin F* 71
H. Brachwitz, U. Lachmann, Y. Thomas, J. Bergmann, W.E. Berdel, P. Langen (Germany) *Synthesis and antiproliferative activity of cytidine-5'-alkylphosphonophosphates and structurally related compounds.* . 77

Book review 87
Announcement 91

T. Ioneda, M. Ishige (Brazil) *Electron impact and chemical ionization mass spectral analyses of methyl esters species of free mycolic acid fraction from Rhodococcus lentifragmentus* 93
A. Nikolova, R. Koynova, B. Tenchov, D. Exerowa (Bulgaria) *Chain-melting phase transition in dipalmitoylphosphatidylcholine foam bilayers* 111
T. Ioneda, B.L. Beaman (Brazil, USA) *Thermospray mass spectral analyses of corynomycolic acids and their derivatives* 123
P. Eid, P.T.T. Wong, S. Lacelle, M.G. Bergeron, D. Beauchamp, D. Carrier (Canada) *Effect of daptomycin on the barotropic behavior of dioleoylphosphatidylglycerol: an infrared spectroscopic investigation* 131
D. Carrier, P.T.T. Wong (Canada) *Effect of dehydration and hydrostatic pressure on phosphatidylinositol bilayers: an infrared spectroscopic study* 141
S. Kuszaj, P. Kaszycki, Z. Wasylewski (Poland) *A fluorescence quenching study on protoporphyrin IX in a model membrane system* 153
P. Villeneuve, M. Pina, J. Graille (France) *Determination of pregastric lipase specificity in young ruminants* 161

Short Communication

H. Okuyama, K. Monde (Japan) *Identification of an ornithine-containing lipid from Cytophaga johnsonae Stanier strain C21 by ^{1}H-NMR* 169
